

SOCKET BOLTS DUAL THREAD M8-M10

Socket Bolts Dual Thread M8-M10

The Socket Bolt is a self tapping anchor for use in a variety of base materials. The undercutting action provides a positive anchorage with no expansion forces.

The Dual Thread allows for the use of M8 and M10 Threaded Rod with the need for only one socket.

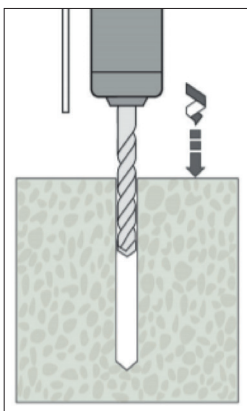

The choice of M8 and M10 gives options for the diameter of Threaded Rod being used.

FEATURES

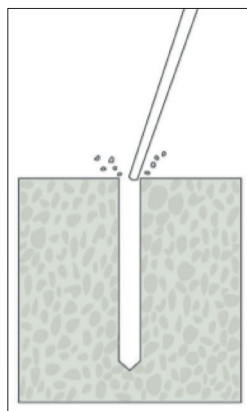

- Undercutting action
- Fast and secure installation
- Expansion free
- High Performance
- Reaction to Fire Class A1
- Fire Resistant Classification R120

BASE MATERIAL

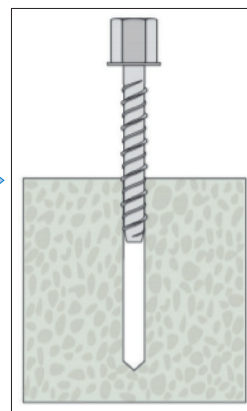

- Concrete C20/25 to C50/60
- Hollow concrete planks
- Solid brickwork
- Concrete block
- Natural stone

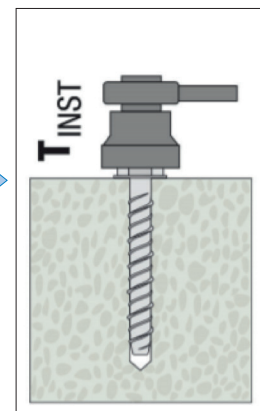

Drill correct diameter hole to corresponding depth

Clean hole by blowing to remove drilling debris and dust
