- Flexible hose for hard to reach areas
- Safety catch to prevent accidental discharge
- Optional 3-piece adaptor kit available

BLOCKED DRAIN LINE?

No problem with a DrainGun! The DiversiTech DrainGun is a lightweight, portable tool designed to unblock condensate drain lines and other pipework instantly. Simply insert a CO² cartridge into the gun and with a press of the trigger and SWOOSH... 800 psi of food grade CO² blows the blockage out – job done!

- The DrainGun uses CO² eliminating the mess caused by water back-flushing drain lines.
- Carbon dioxide (CO²) is a common component of air, and so is totally safe. The DrainGun is a wonderful alternative to the environmentally unfriendly practice of using refrigerant to clean the drain line.
- An adaptor kit is available to allow for use on oil burner lines and tighter areas with a 90° fitting.
- The flexible hose assembly enables you to manoeuvre through cabinets, coils and hard to reach drains.
- A safety catch prevents the DRAINGUN from firing until the operator requires.

■ PRODUCTS AVAILABLE
