

## KWIK-VISE PT-109

The KWIK-VISE line piercing/refrigerant recovery tool pierces, seals and locks on to copper lines in one swift motion.

This tool is self-adjusting, so there is no need to adjust the tool for different sizes of tubing. The tension system automatically locks pliers on copper tubing 1/4" to 1/2" (6 mm-12 mm) O.D.

To use, simply position the PT-109 on the tubing to be pierced. Close the pliers quickly and firmly. The pliers will automatically adjust and lock into a tightly sealed, secure position.

## FEATURES

- Replaceable hardened, stainless steel pierce and brass valve assembly (S16002045)
- Capacity: 1/4" thru 1/2" O.D. refrigerant copper tubing
- Durable: made with high-carbon, heat treated steel jaws
- Works with all refrigerants CFC, HFC, HCFC and Zeotropic, Azeotropic
- 90° elbow valve eliminates tangling and interference problems

## SPARE PARTS

- S16002045  
Replacement pierce and brass valve assembly
