

## SPEEDIDUCT EXTERNAL TRUNKING

- Easy to install, fittings with screws
- Protects the linesets and the unit
- Helps saving energy
- Extends the units life cycle
- Aesthetic Design
- Paintable
- UV-Resistant
- Made of rigid, shockproof, UV-stabilised fire resistant PVC B
- High-quality (usable from -20°C / -4°F to +60°C / 140°F in a static position)
- Inside fixation rail (SpinFix) enables use of cable ties to strap and keep the linesets in place - contributing to the duct rigidity

150 X 80MM

## PRODUCT FEATURES AND BENEFITS

### 1 man job

Use the SpinFix-clip to keep ducts contents strapped while installing the cover.

Easy and Fast!

### Up to 150mm wide

Duct size 150 is the widest of its kind, ideal for multi-split or heat pump installations. It has 2 SpinFix rails: 1 in the top and 1 in the base channel.

### Rigid installation

Top-Bottom fittings assembled with stainless steel screws ensure a rigid installation.

### Large selection of fittings

Not all installations are the same. Some require specific fittings like the soffit inlet, the long flat bend with its larger bending radius for linesets.

## TRUNKING AIR SOURCE HEAT PUMPS

### EXTERNAL 150MM TRUNKING
