

FLEXI SOLAR-HOOK

SOLAR-HOOK

PREVENTS ROOF TILE BREAKAGES

The Solar-Hook is a shock-absorbing roof tile engineered to be installed directly beneath the solar roof hook. It mitigates mechanical stress during installation and operation, preventing tile fracture while improving installation efficiency and reducing labour time.

Installers can now stand on the roof hooks without breaking the tiles underneath.

FEATURES

- UV-stable recycled rubber
- Shock absorbing tile that replaces the fragile roof tiles under the roof hook
- Speedier installation
- Prevents roof tile breakages
- Universal size to fit all roof tiles
